SEVENTY DAYS OF UTOPIA

Conservative Coalition in Congress Needs Backing

All in all, some seven thousand bills have been introduced in Congress in the first 70 of young Mr. Kennedy's "100 Days." The vast majority of these have been introduced for--if not actually drawn up by--minority, special-interest pressure groups, with no thought for the general welfare. The worst are called, "New Frontier" proposals.

Now Commander-in-Chief Kennedy well knows that the mood of the country is conservative. But he is determined to "make a record." Hence, the frontiersmen will stop at nothing to push their programs through, one by one--and they may be successful! They have vastly powerful tools to use: money, patronage, favors, control over our foreign relations and "military emergencies." By establishing some momentum this session, we can go "forward" to complete socialism next session.

CRAZY LIKE A FOXY FRONTIERSMAN

is the "Peace Corps." This loony scheme to bring utopia to foreigners (now that we have it here) consists of sending out hot-eyed young liberals in a 20th Century Childrens' Crusade to preach equality and brotherhood to the underdeveloped, puzzled cannibals of Africa.

Apparently some people think that Americans are nosey know-it-alls. It is proposed to eradicate this reactionary notion by sending out platoons of snoopers, equipped with the "latest findings" of Harvard sociologists, to tell the rest of the world how to behave.

Unless this wacky idea is laughed to death, we may soon find the cannibals over here telling us how to behave, because "reciprocity" is part of the deal! The "Peace Corps" is already operating--brazenly--without the sanction of Congress! And that stalwart communist-fighter, A. Clayton Powell (D,NY), wants \$25 million for the first year! But if you think this expensive, consider the other "merits" . .

It offers unparalleled opportunities to brainwash and regiment American youth. It will set up a powerful international bureaucracy. It will (and is meant to) lead to a vast movement of peoples; the ultimate breakdown of national sovereignties and order, and entry into world government.

OTHER "NEW FRONTIER" PROPOSALS INCLUDE: Aid to depressed areas, socialized medicine, minimum wage hike, urban renewal, foreign aid, attacks on the Connally Reservation and McCarran-Walter Immigration Law, highway construction, "civil rights," social security hikes, disarmament.

CAN THIS LEGISLATION BE STOPPED?

YES!, every bit of it, answer conservative congressmen—if enough legislators vote with the "Third Force" in Congress—the conservative Coalition of both parties. As never before, the safety and security of America rests in the hands of statesmen who rise above petty partisan opportunism by putting their country ABOVE their party and voting with the Coalition. So:

THE EXECUTIVE COMMITTEE OF THE LIBERTY LOBBY ASKS THAT YOU WRITE THREE LETTERS; ONE TO YOUR CONGRESSMAN AND ONE TO YOUR TWO SENATORS, URGING:

- (1) That he SUPPORT the conservative Coalition;
- (2) That he OPPOSE all irresponsible proposals.

Mention any of the issues above that may particularly disturb you, if you wish, but of this be certain: be sure to ask him to support the Coalition at all times. Tell him that you and your friends will be watching voting records very intently from now on.

In the Farewell Address, George Washington warned Americans against "the spirit of party." He foresaw the terrible consequences of petty partisan pettifoggery. Now—with so much at stake—it can be tolerated no longer. The statesmen of both parties must join together!

Please write today. There is sure success when enough voters act in unison. Remember,

YOUR INFLUENCE COUNTS! USE IT!
